About HAGS

Inspiring all generations

HAGS has been designing, manufacturing, installing and servicing commercial recreational equipment for over 60 years. As an integral part of the global leader PlayPower Inc, the business supplies play, sports and fitness, park and urban, marine and shade equipment around the world.

We have operating companies in the UK, Sweden, Germany, France, Spain and Denmark and a global network of authorised distributors in other markets. During 2017, our new purpose built manufacturing facility, based in Poland, will be fully operational enabling the business to continue the HAGS legacy of delivering high quality products at excellent value. The administrative HQ for the business will be based in Egham, London, with design and development retaining its Swedish roots.

Our goal is to be the leading supplier of recreational equipment and solutions in the market, by having the highest level of quality and value for products and service. Our commitment is to help our customers on their journey to deliver outstanding recreational areas and facilities for their stakeholders and communities.

If you would like to talk to us about a project, need support or advice, please get in touch. A list of locations to find your local office can be found on **www.hags.com.**

SHADE STRUCTURES™

PlayPower

Our History

HAGS was founded in Sweden in 1948 with a mission to make the world a better place by providing outdoor play equipment for children – a mission we still live up to through the range of products we design and manufacture today.

1948

- Founded by Mr. **H**ultgren, **A**ndersson and **G**ustavsson

1950s

- Focused on design, function and production
- Started to develop park and urban furniture

1960s

- Began using durable materials and steel
- Worked alongside well-known industrial designers

1970s

- Implemented natural materials and colours into products
- Worked alongside landscape architects, product designers and experts in pedagogics
- Developed first water play concept

1980s

- Developed the first modular play system, providing the opportunity for many different combinations
- The UniPlay modular system was born

1990s

- Rescaled the modular system idea to suit smaller children
- The UniMini modular system was born

2000s

- Through research and development, the product offering was significantly enhanced
- An innovative steel multi-function play system called Agito was launched
- Production of sports and fitness products began

2010s

- HAGS acquires UK's SMP Ltd, a play company renowned for durable steel structures

Today....

- Market leaders in innovative design and play systems
- A portfolio of products larger than ever, giving customers greater choice
- Our story continues.....

Our Philosophy

In developing our products we take into consideration:

Safety

Analysis has showed us that accidents are more likely to happen on equipment that has not been suitably tested. Our product development is based on international research and published standards.

EN 1176: All of our play products are designed and manufactured in accordance with European safety standards for playground equipment. We have embraced the standards on design, function, play value and safety for as long they have existed.

EN 16630: All of our fitness products are designed and manufactured in accordance with European safety standards for permanently installed outdoor fitness equipment. This more recently published standard provides a number of specific requirements for equipment of this type, including the provision of good instruction labels for users.

EN 15312: Our range of Multi-Use Games Areas comply with the European standard for free access multi-sports equipment. This includes protecting of users against entrapment risks, as well as confirming loading requirements for all parts of the structure.

TUV: The German Technischer Uberwachungs-Verein (TUV) has the most extensive and advanced testing and approval procedures in the world. This is why we are proud that all of our play equipment has been TUV approved.

Quality

Since HAGS started in 1948, quality has been a key principle in our company culture. We strive to provide a quality service as well as quality products. We are a certified company according to ISO 9001.

Durability

HAGS uses only top quality materials. That is why we feel confident in offering long-lasting warranties. Read more about our warranty policies at www.hags.com.

Innovation

We are constantly thinking of ways to improve our product portfolio and developing new product designs. We work with industry experts and take on board end user feedback to ensure that we are providing our customers with the best products in the market.

Inclusiveness

Our belief is that everyone should have an equal opportunity to enjoy outdoor recreational equipment. When creating our products, we always consider those with physical and mental disadvantages so that we are able to provide our customers with inclusive facilities.

Our Approach

Corporate Responsibility and Sustainability

Being one of the leading manufacturers of outdoor equipment, we take environmental issues very seriously. We have always been mindful of our surroundings and for many years we have been using metal free oil impregnation avoiding the use of heavy metals. We also set objectives to manufacture and sell our products using the latest methods to minimise the impact on the planet.

How does HAGS contribute to a better environment?

In 1997, we were certified according to **ISO 14001 (Environmental Management System).** We understand that environmental issues must be treated in a clear, structured way, so we have worked with each part of our operation and created a strong program to minimise our impact on the environment.

As an important part of our work, we set demands on ourselves, our suppliers and other co-operators in order to avoid and minimise negative impacts. When designing and producing our products, we carefully select our material. We take into consideration those that can be recycled and that are easy to produce and transport without compromising on strength and durability.

Wood Protection

Our computerised wood-cutting line optimises the cutting of timber required and vastly reduces waste. By installing computerised methods we estimate that 100 pine and 100 birch trees are saved each year.

Similar reductions of waste have been made through 'finger jointing' the raw material. The strength of the 'finger joint' is stronger than the timber itself. By using this method it is estimated that 600 trees are saved each year.

All timber used in the manufacturing of HAGS products is supplied from FSC certified suppliers.

Steel

We are aware that the finishing of steel products can have a major impact on the environment. We have therefore made significant investments in solvent-free, powder-coating finishing lines. This ensures that our steel products are always finished with a highly durable coating, with significantly less environmental impact than traditional solvent based processes. We also encourage the principle that steel is recycled again at the end of its life.

Welcome To The HAGS World

Play

Early years/Young people

Our comprehensive range of play products includes everything from solo units to modular play systems that will provide endless fun and excitement for children.

Sports

Multi-Use Games Areas

Our large range of Multi-Use Games Areas are designed for people and teams of all ages wanting to play and enjoy various ball sports.

Fitness

Outdoor Fitness

We offer a wide range of fitness units and bundle packages to encourage physical activity for all abilities.

Park and Urban

Inspirational outdoor spaces

Our park and urban furniture range includes high quality furniture, bins, bicycle garages and planters which are great for any outdoor environment.

Marine

Fun on the water

Whether building for a small swimming area or a complex marina, our EZ Dock™ docking system is great for any waterfront and is extremely versatile, flexible and stable.

Shade

Protection from the sun

We have designed and built thousands of structures for a wide range of customers providing solid, durable protection from the sun.

Play

The importance of play

At HAGS, we use knowledge of the value of play and put it into practice by creating innovative and exciting products. Whether it be climbing, sliding, swinging, crawling... we want our products to entice activity and contribute to the development of young people's physical and mental wellbeing.

Research

Extensive research on the importance of physical activity for children shows that they develop essential fine and gross motor skills and learn to build strength, stamina and coordination through play. Daily physical activity can improve both mental wellbeing and cognitive development.

"Regular physical activity during the early years provides immediate and long-term benefits for physical and psychological wellbeing."
(UK active)

Discovery

Play is not only about burning off energy and creating stories, it is also about discovering the alphabet, numbers, patterns and geometric shapes in a fun way.

"Play is our brain's favourite way of learning" Diane Ackerman

Imagination

We believe that imaginative play contributes to children's creativity. Through their creativity, children learn to express themselves, interact with their peers and develop a range of key motor skills. Our play equipment is designed to inspire children so they can become an element of their own stories.

"Creativity is intelligence having fun" Albert Einstein

Playgrounds for all

We have worked with a number of organisations and experts in various fields of disability. Our efforts have resulted in solutions that give all children access to the experience of play. Here are a few things to consider:

- Compact surfaces like rubber tiles or poured-in-place rubber give children and adults with mobility impairments access to the playground.
- Specially adapted play equipment can be combined with standard products, e.g. regular swings together with swings designed for children with disabilities.
- Contrasting colours can make it easier for people with visual impairment to find their way around the playground.

HAGS Play Values

Our play values illustrate the benefits our products can provide a child

Social Skills
The child learns to interact and play with others as well as take responsibility for their actions.

Physical
Physical activity increases intelligence – the more children move as they play, the more receptive they are to knowledge.

Literacy
Play increases the ability to communicate and develop language skills through interaction.

Imagination
During play, the child's mind is free for them to become whoever they wish making playtime fun and exciting.

Sensory
Seeing, touching and feeling during play, all contribute to mental development and also assists in children assessing risk.

Numeracy
Play forms a basis of learning to solve concrete, practical and abstract mathematical problems.

New for 2017

Multi-Purpose Fitness Frame

Designed for a total body workout to help develop core strength, flexibility and confidence. This piece of equipment allows up to 5 users at a time, keeping up with modern day exercise trends and requiring minimal maintenance.

Swingo

The Swingo is a dynamic, multi-directional product that rocks in two directions and rotates at the same time, providing lots of fun for young children.

Hardwood Furniture

Extremely long-lasting, Bilinga timber shows excellent resistance to fungi or bug contamination. It requires minimal maintenance and is suitable for hot climates. Available in three of our product ranges: Sofiero, Ekeby and Gripenberg.

UniPlay Stainless Steel

This new range comes in 2 types of steel posts: stainless steel and powder coated steel. Both provide a sleek, modern look, complimenting modern architecture. With low maintenance and outstanding resilience, it is suitable for the most challenging environments.

Omega Swing Frame with Bravo Seat

The Omega swing frame is robust and durable, designed in a way that allows for extensions and seats to be added. The Bravo swing seat is designed for multiple users and is hard wearing and resilient.

Low Impact Fitness

Our Low Impact range is designed for people of all abilities. This range assists in all types of functional fitness including aiding recovery for those in need of movement based exercises.

Guide to HAGS symbols

Our products are labelled with symbols showing assembly time, recommened age, inclusive play, vertical drop, how much space the product requires, etc. See below the symbols used in this brochure.

Assembly time in man hours

*Age recommendation

Inclusive play

Free height of fall EN 1176

Impact area EN 1176

Anchoring options

Space required

For detailed information about product options please visit www.hags.com

* It is expected that children of the same age will develop at different rates and have varying abilities. Therefore, the age recommendation in this brochure is given as a guideline only in order to help specifiers when considering a play space facility. We offer many products with inclusive features to allow users of different abilities to play together and challenge themselves however, we recommend supervision for younger children and those with physical and mental impairments.

UniMini™

Ages 1+

Assembly time	Recommended age	Accessible	Free height of fall EN 1176	Space needed	Impact area EN 1176	Anchoring (see Options section)

UniMini

A complete range of play equipment with modular dimensions and heights adapted for small children.

UniMini is packed with play opportunities to inspire growing minds and offer exercise for growing bodies. The UniMini range is naturally attractive to the under 5 age range.

UniMini complements natural surroundings and can be constructed virtually anywhere. We have a wide range of ready-made standard units, for every scale and budget, and exciting themed units to bring imaginations alive.

Zingo

The Zingo family offers a wealth of play opportunities on small surfaces. Lovely, playful colours invite children to climb, crawl, sit and balance, especially on the unique teardrop shaped Giant Bubble that makes Zingo an exciting attraction.

The Zingo's modern bright colours and use of organic shapes really appeal to the younger users. Promoting social interaction and development as well as providing challenging and physical exercise the Zingo game panels help improve motor and cognitive skills.

Agito

Ages 5+

Assembly time	Recommended age	Accessible	Free height of fall EN 1176	Space needed	Impact area EN 1176	Anchoring (see Options section)

Agito

HAGS Agito inspires young minds to the imaginative play opportunities it represents. The intriguing design and vibrant colours encourages physical active play that helps develop strength and coordination. Agito also gives scope for comfortable socialising with friends in the Origo net.

If you want Agito to really stand out, choose our Agito Aura range. Equipped with coloured LED lights that light up at dusk and create an ambiance during dark hours, increasing the time the equipment can be used. LED lights can be placed in the poles and the pole tops.

Crystal Aura

The centre of attention

The shimmering Aura lights create an exciting focal point in any play environment.

The lights are placed on top of each post and in the rotation moulded play functions, like the tubular slide. Four colours loop in an inviting, vibrant sequence of light.

Aura is available for Igloo, Corro, Q, Vox and Crystal.

Technical information

Waterproof plastic covered LED lights in 4 differnt colours. Powered by low voltage electricity (24V). The power source should be placed at a maximum of 5 meters from the Agito Aura.

AGITO AURA

Nexus

Ages 7+

Assembly time	Recommended age	Accessible	Free height of fall EN 1176	Space needed	Impact area EN 1176	Anchoring (see Options section)

Nexus

Nexus fuses organic forms and a striking, raw architectural style to create structures that will stimulate action and excite any imagination. The look instinctively appeals to children's sense of adventure with challenges to get them moving so they never get bored.

The family of Nexus products offer a variety of shapes and activities. Many can be combined to create a more diverse and expansive play space. With its modern architectural style Nexus invites you to scale new heights as every elevated part is climbable.

NRG

Ages 5+

Assembly time	Recommended age	Accessible	Free height of fall EN1176	Space needed	Impact area EN 1176	Anchoring (see Options section)

NRG

Just like the name implies, the NRG family invites the sort of play that gives energy. It offers various forms of balance training, using ropes and steadier surfaces.

The trail system was designed to be both eye catching and challenging. It's distinctive steel curved arches and support posts make an impressive centre piece for any play area, attracting children of all ages and abilities. There are numerous individual activity units, all with different challenges. These can be arranged in virtually any configuration to create your own bespoke layout, or you can choose one of our standard configurations to suit all sizes and budgets.

Nature Play

Ages 1+

Assembly time	Recommended age	Accessible	Free height of fall EN 1176	Space needed	Impact area EN 1176	Anchoring (see Options section)

Nature Play

The Natural Play range is composed of trim trail units inspired by nature that can be combined in multiple ways to create bespoke play. With their organic shapes and earthy cues, the designs are a low visual impact option and will complement nicely a green space.

The Natural Play system offers non-prescriptive activity options which encourage children to challenge themselves and use their imagination. Running between obstacles also boost their fitness levels. The whole range is made from Robinia wood, known for its durability and resistance to harsh weather conditions, decay and vandalism. Its very dense composition makes it ideal for outdoor equipment.

Nature Play

Traditional and Dynamic Play

Ages 1+

Assembly time	Recommended age	Accessible	Free height of fall EN 1176	Space needed	Impact area EN 1176	Anchoring see Options section

Traditional and Dynamic Play

We have all the playground favourites that make up a great play facility. Our traditional and dynamic play units help complete a playground and can be combined to complement our entire play range.

Our range includes springers and rockers, seesaws, swings, slides, roundabouts and spinners, sand and water products, cableways, trail play and many other accessories.

Rockers and Springers

Assembly time	Recommended age	Accessible	Space needed	Impact area EN 1176	Anchoring See Options section

Outdoor Fitness

Exercising is fundamental in helping to improve people's health and well-being. We have a range of equipment that promote and improve cardiovascular training and toning.

Our range covers a number of exercises, making it possible to train various muscle groups. Our outdoor gym stations have been designed to challenge and strengthen specific muscle groups. They help the user build stamina and boost fitness levels.

Gym Stations

Our gym stations are available in 4 different colour options:

- Yellow
- Forest Green
- Anthracite
- Titanium

Internal halyard **External halyard**

Our bicycle garages can be ordered in various designs and colour combinations. The metal parts are supplied as standard hot-dip galvanised. The wooden slat screens used in the Stella model are made of pine and treated with tar black linseed oil and top coat. The Capella model screens are hot-dip galvanised square pipe and the Nova has expanded metal screens.
In addition to these options, the metal can be painted in any RAL or NCS colours (at additional cost). The slats can also be lacquered or linseed oiled with other colour pigments, such as silver grey or bark brown. Roofs can be coated with plant sedum as an additional option. The flexible modular system enables an infinite number of possible combinations and number of bicycle stands.

Marine EZ Dock™

HAGS®

Marine - EZ Dock™

Did you know we also provide a marine range? Our range of products are versatile, durable and easy to configure to suit any need – whether it be residential, commercial or a special event.

The marine range has superb buoyancy, functionality and safety, which performs well under high-stress conditions and are suitable for any season. The flexibility of our products gives customers the ability to create a simple swim platform to an elaborate and more complex marina.
